

The Archbishop's School

Christian Values

“Our school values were chosen as ones that best represent our school and what we aspire to be and do.

These are values that we seek to uphold and act out in all that we do and in all areas of the school community. They were chosen by students, parents, governors and staff together.

They are all based on parables as told by Jesus and each classroom has a copy of them to remind students of the importance of them.”
